unofficial-xamk

- attachment()
- long-task()
- scientific-poster()
- thesis()

attachment

Add attachment.

Parameters

```
attachment(
  body: content,
  flipped: bool,
  name: string
)
```

body `content`

Attachment content.

flipped `bool`

Flip pages into landscape orientation.

Default: `false`

name `string`

Name of the attachment.

Default: `""`

long-task

Long task template function.

Example

```
#show: long-task.with(
  lang: "fi",
  metadata: (
    authors: (
      (name: "First Last", group: "GRUOPXX", student-number: "12345"),
    ),
    title: "Title",
    subtitle: "Subtitle",
    task: "Task",
    course: "Course name",
    date: datetime.today(),
  ),
  theme: (dark: false, logo-yellow: false),
```

)
Body

Parameters

```
long-task(
  body: content,
  lang: string,
  theme: dictionary,
  metadata: dictionary
) -> content
```

body `content`

Contents of the document.

lang `string`

Text language.

Default: `"fi"`

theme `dictionary`

Theming options.

Default: `(`

```
    // Dark background and white font color.
    dark: false,
    // Yellow logo. Not on white background.
    logo-yellow: false,
    cover-font: none,
    // Set custom logo color. Might break brand guidelines.
    custom-logo-color: none,
  )
```

metadata `dictionary`

Cover details.

Default: `(`

```
    authors: ((name: none, group: none, student-number: none),),
    title: none,
    subtitle: none,
    task: none,
    course: none,
    date: none,
  )
```

scientific-poster

Scientific poster template function.

Example

```
#show: xamk.scientific-poster.with(
  title: "Otsikkoteksti",
  lead-paragraph: "Ingressiteksti",
  header: none,
  flipped: false,
)
Body
```

Parameters

```
  scientific-poster(
    body: content,
    title: string,
    lead-paragraph: string,
    flipped: bool,
    header: content
  ) ->
```

body `content`

Contents of the poster.

title `string`

Title.

Default: `"Otsikkoteksti"`

lead-paragraph `string`

Lead paragraph.

Default: `"Ingressiteksti"`

flipped `bool`

Horizontal orientation.

Default: `false`

header `content`

Header content.

Default: `none`

thesis

Thesis template function.

Example

```
#show: thesis.with(
  lang: "fi",
  metadata: (
    authors: (
      (name: "First Last", group: "GRUOPXX", student-number: "12345"),
    ),
    title: "Title",
    subtitle: "Subtitle",
    degree: "Degree",
    degree-programme: "Degree programme",
    date: datetime.today(),
    supervisors: (["Supervisor"],),
    fi: (
      degree-title: "Tutkintonimike",
      thesis-title: "Opinnäytetyön nimi",
      commissioned-by: "Toimeksiantaja",
      abstract: [
      ],
      keywords: ("opinnäytetyö",),
    ),
    en: (
      degree-title: "Degree title",
      thesis-title: "Title of the thesis",
      commissioned-by: "Commissioned by",
      abstract: [
      ],
      keywords: ("thesis",),
    ),
    level: "bachelor",
  ),
  theme: (dark: false, logo-yellow: false),
)
Content
```

Parameters

```
thesis(
  body: content,
  lang: string,
  theme: dictionary,
  metadata: dictionary
) -> content
```

body `content`

Contents of the thesis.

lang `string`

Text language.

Default: `"fi"`

theme `dictionary`

Theming options.

Default: `(`

```
    // Dark background and white font color.
    dark: false,
    // Yellow logo. Not on white background.
    logo-yellow: false,
    cover-font: none,
    // Set custom logo color. Might break brand guidelines.
    custom-logo-color: none,
  )
```

metadata `dictionary`

Cover and abstract details.

Default: (

```
    authors: (
      (name: none, group: none, student-number: none),
    ),
    title: none,
    subtitle: none,
    degree: none,
    degree-programme: none,
    date: none,
    supervisors: (),
    // Only required if `lang` is "fi"
    fi: (
      degree-title: none,
      thesis-title: none,
      commissioned-by: none,
      abstract: [],
      keywords: (),
    ),
    en: (
      degree-title: none,
      thesis-title: none,
      commissioned-by: none,
      abstract: [],
      keywords: (),
    ),
    // bachelor or master
    level: "bachelor",
  )
```
